Let's serve you by
Evertec solution

CT Recipe

CT Recipe saw

Fearless cutting

Sharp serrated
Long-lasting

Fast cutting, good toughness,
anti-scratch

Quick cutting
The section is flat.

The serrations alternate
left and right to increase
the degree of bite with
the object, and cut more
accurately, efficiently and
quickly.

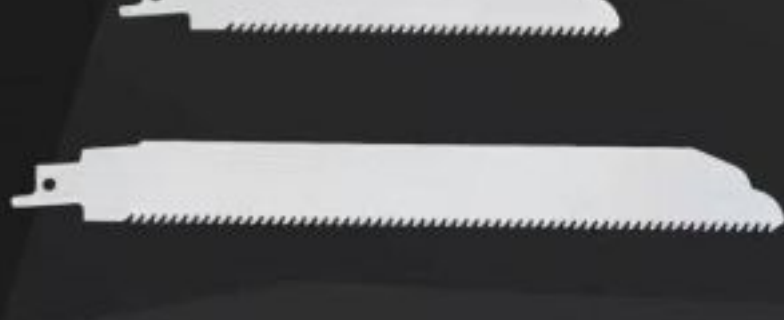

Product parameters

CT Recipe saw Parameters

Extent (mm)	Width(mm)	Thickness(mm)
100	25	1.25
152	25	1.25
228	25	1.25
305	25	1.25

Product Features

Reciprocating saws are used for sawing metal pipes, plates or cutting bevels on steel pipes, and can also cut cables or other non-metallic materials. This reciprocating saw is especially suitable for cutting high-strength materials.
